THE REGULAR ARMY.

REMARKABLE SUCCESS OF WORK OF RECRUITING.

LEAVENWORTH

The High Course of Instruction-Moral Character-The North Carolina Brigadier-Generalship - The Prominent Names Mentioned.

WASHINGTON, D. C., June 18 .- (Special.)-The recruiting officers for the regular army report satisfactory progress. Adjutant-General Corbin told me to-day that the 18,000 recruited in May was the largest number that had ever been mustered into the regular army in any one month; that from preliminary reports shape received this month the number for June fairly well equipped. would be even greater than the number for May. At this rate the regular army will be recruited up to the legal limit-\$1,000-by the 1st or middle of August. made up of very indifferent material, but it has not been so for many years. A young man who offers for enlistment now must undergo a most rigid examination. gallantry during the civil war. If he is accepted he must not only be physically sound, but he must prove a good moral character, must possess good intelligence, and must have a good rudimentary education. In the rank and file to-day are found many well-bred well-educated young men, who aspire to commissions. All ambitious and studious enlisted men have a chance at a fine military education in the school at Fort Leavenworth, where the curriculum is only a little less comprehensive than that at West Point. All non-commissioned officers who graduate at the Fort Leaven worth School are eligible to second lieutenancles

NORTH STATE BRIGADIER.

The North Carolina brigadier-generalship has narrowed down to two names. The appointment has been tendered Colo-nel Charles A. Cook, of Warrenton, and, if declined by him, Representative Linney has consented to accept it. Colonel Cook has recently been nominated for Judge. and it is not believed here that he will accept a military appointment. Hence, it is certain that unless he reconsiders Rep. resentative Linney will receive the muchagitated appointment. This will necessitale an election in the Eighth Congressional District before the regular November election, and it is possible that this consideration may influence Mr. Linney in finally declining the appointment. General W. P. Roberts, Colonel H. S. Burgwynn, and former Adjutant-General North Carolina State Guard, James D. Glenn. Ex-Senator Ransom is here urging the appointment of Colonel Burgwynn, while Colonel A. B. Andrews, who voted for McKinley, is urging the appointment of General Roberts.

Mr. Glenn made a fine reputation as National Guardsman, and served with conspicuous gallantry in the Confederate army. Colonel Burgwyn commanded a giment of junior reserves. In the last months of the war General

Roberts was made brigadier-general cavalry after many acts of marked bravery in battle. Mr. Linney served in the ranks until shot to pieces at Chancellorsville. He comes from the noted fighting Baxter family in North Carolina and Tennessee. He is regarded as one of the ablest lawyers in North Carolina and one of the strongest men in the House of Representatives. His renomination and reelection to the next Congress is consid-

ered certain.

The Sixth Regiment, to which Major Spier Whitaker, of North Carolina, has been designed, will be composed of Ten-nessee and Kentucky troops. It will be commanded by Colonel Tyson, who is also native of North Carolina. Major Whitaker feels, he says, as if he had entered the United States army for good and life. His professional life is closed. He expects to join the regiment at Nashville in a few days, and will spend a day or in a few days, and will two in Raleigh en route.

The government has donated, through Colonel Boyd, a 3-inch rifled cannon to for use at Guilford Courttouse battle-field. Benjamin C. Sharpe, of Greensboro.

has been appointed clerk in the paymasters' department of the army.
Mr. John Hay Williams, of Asheville, has been recommended by Schator Pritch-

ard for a lieutenancy in the regular army.

Two Sets of Delegates to the State Convention-Two County Committees-Courts Will Have to Be Ap-

CLEVELAND, O., June 18 .- As a result of the senatorial fight of last winter, | In the Chamber of Deputies, Senor Salthe Republicans of Cuyahoga county had to-day the most intense battle ever seen in Northern Ohio.

At the caucus Thursday night, the struggle between the Hanna men and the forces of Mayor McKisson was keen and bitter, and the outcome was so doubtful that on Friday both factions sary claimed to have elected a majority of the delegates to the county convention.

The convention opened in Army and Navy Hall this morning, amidst the greatest excitement. A large squad of police were on hand.

The County Committee of fifteen, controlled by the Hanna men, insisted upon its usual privilege of naming the temporary chairman, and sent C. W. Collister to the platform in that capacity. the greatest confusion on platform, the McKisson men demanded that F. L. Taft be made temporary chair-man. Taft went to the platform and man. stood beside Collister. broke loose. The police charged the platform, climbing over the reporters' tables, and forced Collister and every Hanna man with him out of a side entrance. Taft called for a vote on temporary chairman, and before it ended every Hanna delegate had left the hall. Mayor McKisson was in a side-room.

The Hanna men went to Riblet's Hall, near by, and held a convention of their own, choosing delegates to the coming State convention and a county mittee of fifteen for the ensuing year. The McKisson men, in Army and Navy Hall, did the same. The State conven-tion will decide which delegation shall have to decide which committee of fifteen was legally chosen.

FLAG FOR THE CHARLESTON.

Presented by Downger Queen Kapiolani-Cable Bill Passes.

HONOLULU, June 9, via VICTORIA, B. C., June 18 .- On the 2d instant Queen Dowager Kapiolani presented to the United States steamer Charleston a large flag as a token of her appreciation of the kindness of the officers of the warship immediately preceding and following the death of her husband in California in 1891. Four men, members of the Hawaiian army, joined the United States forces here. They went aboard the Peking and were enlisted at once. It is given out officially that the Bennington will not leave port until the arrival of the Mohican.

The cable bill has passed the third reading in the House, and now requires only the action of the President to make it a law. It grants an exclusive franchise between the Hawaiian Islands and Japan, with the right to touch at all other islands in the North Pacific north of the tenth degree of north latitude. The fran-chise is conditioned upon the company's securing within eighteen months a franchise for a cable between the United States and these islands from the American Congress, and the approval of the Secretary of State within six months thereafter. The bill names the Pacific thereafter. The bill names the Pacific Cable Company, of New York, as the cororation to which the franchise is to be

WILHELM'S SENTIMENTS CHANGE. Not Now So Much Against Us-Spain's Underground Efforts.

(Copyright, 1898, by the Associated Press.) BERLIN, June 18.-Emperor William's sentiments in regard to the war between Spain and the United States have considerably changed during the past month. A member of his Majesty's entourage informs the correspondent here of the Associated Press that the persistent state-ments of the American and British press often counted with insulting comment alleging that the Emperor intends to actively interfere in behalf of Spain, and mouting to his Majesty sentiments which were actually foreign to him at the open ing of hostilities," have greatly annoyed the Emperor, and the "constant reitera tions of the erroneous statements as to Germany's official attitude's being un-friendly to the United States, have dis-

pleased Emperor William exceedingly. The informant of the correspondent the Associated Press continued: turally, the Emperor and the government are seriously analyed at the wholly groundless charges. Patience is a vir

ue, but there is a limit to it."
In contrast to the above official utter ance, there are a variety of indications in regard to the Philippine Islands. The officials of the Foreign Office say Germany's strong naval display at Manila is made merely to protect German sub-jects, and a part of the press adopts the same attitude, based on the Foreign-Office statement, saying the imputation that Germany means to interfere in the American operations or in the American occupation of the Philippine Islands is base less, as Germany's naval force there i altogether too small for such a purpo

All the recent news from Cuba and the Philippine Islands is interpreted as being unfavorable to the United States, and Guantanam Bay affair is dubbed : defeat, unqualifiedly.

Nevertheless, the papers are now printing numerous communications from pro-Americans, protesting against the persist ent abuse and slander to which cans have been subjected since the open-

ing of the war.
In spite of the denials from Madrid, Spain continues her underground efforts to prejudice the Powers in her favor On Wednesday last, Senor Castillo, the Spanish Ambassador to France, arrived at St. Petersburg to support the efforts of Count Villagonzallo, the Spanish Am bassador at St. Petersburg, in the latter efforts to induce the Russian Minister fo Foreign Affairs, Count Muravieff, to join France, and possibly Germany, in intervening in Spain's behalf.

The Adulteration of Flour. (Charleston News and Courier.)

Come! comrade! let us sleep!"

Huntington, Pa.

It is the simple statement of a fact to say that the people of South Carolina must look for whatever measure of protection they may obtain against the free sale and consumption of adulterated food products in their State to Legisla tive and other authorities outside the State, and it is pleasant to learn, therefore, that the war-revenue bill passed by the Senate contains a provisi quiring every barrel of adulterated flour be stamped with a 4-cent stamp, and to be pininly marked or branded "mixed flour," together with the true weight of the package, the names of the ingredients contained therein, the name of the manufacturer or packer, and the place where manufactured or packed, so as to fully advertise its character. Senator Mason, of Illinois, the father of the provision, in urging its adoption, read the following circular from a North Carolina firm to flour-millers, in which attention is called to a certain substance called "mineraline" which is manufactured by them which is manufactured by them

for the purpose of adulteration:

GREENSBORO', N. C., May 7.—Gentlemen: We invite your attention to our mineraline, which is without a doubt the greatest existing discovery.

There is no flour-mill man who can

afford not to use it, for several reasons. Your flour will be much whiter an

way, is not at all injurious to the health, and by using mineraline you realize a margin of from \$400 to \$1,000 on each carload you use.

To secure a low freight rate, we mark it as "shipstuff." We can furnish you mineraline free on board cars, your station, for high-grade flour, at \$20 per ton, for medium-grade flour at \$16 per ton, for

for medium-grais hour at sip per ton, for bread meal at \$12 per ton, and for feed meal at \$5 per ton.

For a high-grade flour use 15 per cent, mineraline, for medium-grade flour use 12 per cent, mineraline, for bread use 12 per cent, mineraline, and for feed meal use 13 per cent, mineraline. We furnish all our customers with a mixer free of charge. This machine will distribute completely any proportion desired, and costs nothing to attach. All you have to do is to bore a hole in your elevator pips. clamp on the machine, attach a cord to run it, fill up the hopper, and set the feed

to the proportion desired.

Enclosed find sample of our mineraline or medium-grade flour. You cannot afford to let your competi-

tor beat you in both quality and margin. We would be glad to hear from you. Very truly yours, THE NEW YORK MANUFACTURING

The analysis of the sample was placed before the Senate and forms a part of the records before the Ways and Means Com mittee, and shows that the "mineraline" is ground clay, 95 per cent, of which is not even soluble in acid. Other flour adulterants which the tax measure will reach are barytes flour, or ground rock, which adds to the whiteness as well as the weight of the flour with which it is mixed, so that the unsuspecting purchaser not only has his health injured by the mixed product, but is swindled in the price of it at the same time. A more common adulterant than either of these with the gluten and sugar exhausted and bleached with sulphuric acid. We have recently published a full and detailed exposure of the very general use of this adulterant by flour manufacturers, in which it was noted that they found the readlest and largest market for their pro duct in the Southern States. It is not necessary to repeat the story here, but it is reassuring to know that the tax measure will apply to this fraudulent product

The letter of the North Carolina manufacturing swindlers speaks for the self, and calls for no comment, except as to the ignorance and general incapacit, of public authorities, who will allow the communities under their care to be subjected to so vicious frauds without lift-ing a hand to prevent or punish them. In the absence of effective action by Con-States, of South Carolina among others would remain the ready victims of the swindlers for years to come. The State known to be full of the adulterated flour. It is consumed daily in nearly every household, and not one effort has been made in any official quarter to proly establishment is maintained, and has been for years, for no other purpose, as assured, than to prevent the sale and

consumption of adulterated liquors.

The penalties for the violation of the provision requiring the stamping of packages of mixed flour, it is gratifying to learn "is severe," and will doubtless in-sure a close observance of the law, as it is well known that the Federal statutes, and especially those which relate to revenue matters, are enforced with rigor. the present high prices of flour, the temptation of dishonest manufacturers to use adulterants freely is, of course, very strong, and it is estimated by Senator Mason that fully 75 or 80 per cent, of all the flour sold in the market is adulterated. In these conditions those commu-nities in South Carolina which are so fortunate as to be able to draw their supplies from their own wheat-fields, through their local mills, are greatly to be en-vied. It is a great pity that every couny in the State is not so favored as the

result of its own enterprise. Four Thousand Troops With Camera GIBRALTAR, June 18 .- It is asserted here that six transatlantic liners, having on board 4,000 Spanish troops, accompanied Admiral Camara's fleet.
